

Claims Consultants LLC

"There's No Substitute for Experience"

Introduction to the Claims Consultants LLC
Risk Management Programs

Claims Consultants

How much money does your company stand to lose from unknown risk?

Is your company rolling the dice when it comes to risk?

Claims Consultants

Is this the home that
you think your
company is
insuring?

Claims Consultants

Or is this the real
risk that you have
on the books?

Claims Consultants

Insurance Companies offer premium discounts to those homeowners who have taken protective measures to decrease their risk against certain perils such as hurricanes.

Claims Consultants

But what if the insured does not actually have the equipment that will lower the risk for your company?

Claims Consultants

Does your insured really have that new state of the art security system?

Claims Consultants

Insurance companies are losing millions of dollars each year by offering premium discounts that are unwarranted.

Unwarranted discounts translates to bad risk and lost revenues.

Claims Consultants

Claims Consultants offers a variety of customizable risk management programs to help your company verify and manage risk.

Claims Consultants

- n Claims Consultants offers three different types of Advanced Underwriting Inspections that can be customized to fit your specific needs and budget.
- n Claims Consultants offers comprehensive reports that will help you identify good vs. bad risk and act accordingly.

Claims Consultants

TIER ONE

Tier One inspections are exterior only and report on the condition of the property and dwelling.

The dwelling and all other structures on the insured's property is identified and evaluated.

Claims Consultants

TIER TWO

Tier Two inspections are cover both interior and exterior of the insured property.

This report will cover the basics of both condition and risk associated with the insured property.

Claims Consultants

TIER THREE

Tier Three inspections are the most comprehensive and offer detailed reports on all aspects of the potential risk associated with the property.

Claims Consultants

- n Claims Consultants will work with your company to customize a program that will both give you what you want and fit within your budgetary constraints.
- n Our staff of professional and certified inspectors will represent your company well and ensure that the properties you offer discounts to actually qualify.

Claims Consultants
